

## **Spectrum Chemical Mfg. Corporation Receives GE Healthcare Life Sciences 2017 Distinguished Partner Award for Exceptional Applied Markets**

**NEW BRUNSWICK, NJ, March 6, 2018** – [Spectrum Chemical Mfg. Corp.](#), a leading U.S. chemical manufacturer and distributor, has been honored with the 2017 Distinguished Partner Award for Exceptional Applied Markets from [GE Healthcare Life Sciences](#). Spectrum Chemical received the award at the company's National Sales Meeting held in New Brunswick, NJ.

Ryan Walker, Channel Manager, U.S. & Canada, GE Healthcare, presented the Distinguished Partner Award to Spectrum Chemical. Walker said, "We want to congratulate Spectrum for double-digit growth in applied markets in 2017. In addition to that strong expansion, we want to thank Spectrum employees for the partnership in marketing, programs, operations and the sales force that has helped both GE and Spectrum grow dynamic momentum in industry markets. As a partner, Spectrum understands that customer success is the key to business success." ([See video of Ryan Walker congratulating Spectrum Chemical.](#))

Ruben Lopez, Spectrum Chemical Vice President, Product Management, commented, "We are very pleased to receive this GE award recognition. All the credit for being honored as a Distinguished Partner belongs to our Spectrum team's hard work and dedication to our customers' needs as well as GE's support in 2017. The Exceptional Applied Markets award is further validation of our collaborative, customer-centric culture. We look forward to continue growing our partnership with GE Healthcare Life Sciences on multiple fronts."

Spectrum Chemical is a major supplier of GE Healthcare Life Sciences, including products such as syringe filters, syringeless filters, capsule filters, and membranes, serving customers in the HPLC, Sample Preparation and Environmental markets.

### **About Spectrum Chemical Mfg. Corp.**

Spectrum Chemical Mfg. Corp. is a leading global manufacturer and distributor of fine chemicals, laboratory equipment and supplies for a range of industries. Spectrum offers the largest selection of USP chemicals in the world, including laboratory, scale up and bulk quantities. Bicoastal cGMP facilities are FDA registered and inspected, with additional certification to the ISO 9001:2015 standard. Spectrum performs extensive laboratory testing using the most modern instrumentation to ensure the highest quality standards in both its New Jersey and California laboratories. The company's extensive scientific documentation provides the change control needed for quality-driven industries. For more information, visit [Spectrum Chemical.com](#).
